

3M™ Marine Finesse-it™ II Glaze brings out the shimmering beauty of that high gloss "wet look" finish on fiberglass and painted boats. It effectively removes minor scratches and light oxidation. Using this product is highly recommended after compounding to eliminate light scratches and swirl marks. Use it whenever it's time to rejuvenate the high gloss finish on a boat.

Removes Everything from Fine Scratches to Light Oxidation

3M™ Marine Finesse-it™ II Glaze removes micro-fine scratches and swirl marks that occur while sanding and compounding. Using this product is a suggested follow-up step after using 3M™ Perfect-it™ Gelcoat Heavy Cutting Compound. Our wax-free, silicone-free formula creates a silky smooth finish that's free of all surface imperfections. This marine glaze will also remove light oxidation that dulls gelcoats.

Better Science for Better Boating from 3M

Our 3M™ Marine Finesse-it™ II Glaze a terrific example of how 3M applies science to the lives of boating enthusiasts for better, cleaner boating.
