### Manual/Water-Activated Emergency Signaling Light

#### More About the C-Light<sup>™</sup> series:

The compact, rugged and waterproof C-Light and C-Light  $H_2O$  are USCG/SOLAS approved and have a 20 lumen LED that operates typically for 30 hours continuously. These steady-on personal distress lights feature an impact resistant case – making them reliable, multi-pur-pose lights whenever efficient distress lighting is needed.

The C-Light is activated manually with an easy twist On/Off activation and the C-Light H<sub>2</sub>O model includes two activation methods; the light can easily be activated with a simple push of the On/Off button or when in the armed position, can be activated automatically when immersed in water.

The slim, lightweight and versatile design of these lights allows them to fit easily in a pocket or hang discreetly when attached to a life jacket or backpack. The flexible lashing loops on the side of the products allow for multiple mounting options including the webbing on your backpack or straps on your life jacket. The hook and loop factorer straps can be converted around the lacking loop fastener strap can be secured around the lashing loops and

## **SPECIFICATIONS**

creates countless additional mounting possibilities. The lights also come with a clip designed to conveniently slide over your inflatable life jacket's oral inflation tube for storing your light inside your life jacket.
