

## RMEQUIP

### Arkon Universal Marine Electronic Fishfinder Mount

#### DESCRIPTION:

Attach your Humminbird or Kayak fishfinder, Garmin GPS, marine radio, or other marine electronic device to your boat's bow with Arkon's RMEQUIP universal marine electronic mount. This sturdy mount includes Arkon's APEQUIP mounting plate with Robust Series 4-Hole AMPS Mount. In addition to marine electronics, you can attach other accessories to RMEQUIP, including batteries, CB radios, Ham radios, and audio receivers. The plate can also be used as a splitter plate. The anodized machined aluminum plate measures 6.75" (17mm) long, 2" (50mm) wide, and 4mm thick. It features 48 4mm unthreaded holes that are spaced apart to provide a number of mounting options, including multiple 4-Hole AMPS devices. The four 5mm holes in the center of the plate are also recessed in the 4-Hole AMPS pattern. The 4-Hole AMPS pattern consists of four holes located in a rectangular pattern spaced at 30.17mm by 38.05mm (measured as the center-to-center distance between holes). The tough, low-vibration mount pedestal measures approximately 4.5 inches high from the bottom of the base to the top of the pedestal (holder not included), and is made of a combination of plastic and glass fiber. It features an AMPS drill mount base. The arm of the pedestal swivels on both the top and the bottom, providing 360-degree rotation and the ultimate flexibility in positioning the device at any angle.

#### FEATURES:

- Use mount to attach fishfinders and other marine accessories to your boat
- Also attach gimbal brackets, batteries, CB radios, Ham radios, and audio receivers
- Includes 4mm and 5mm unthreaded holes in 4 Hole AMPS mounting pattern
- 2 year limited warranty
