

Easy to use: Attach hooks, pull tight
Marine Quick Cinches are easy to use, without stretching or knots to tie. Package contains 8 ft of 1/4 in. rope, two chrome plated hooks, and one cinch. Use several Marine Quick Cinches to easily tie-down boat covers or loose cargo. They are useful anytime for hoisting or securing items. For example, use them while camping, hunting, moving, transporting toys or tools, and doing yard work.

Before use,

- Attach hook to end of rope.
- Insert the free end of rope through the bottom while pressing lever located above cinch spool.
- Continue inserting rope until it exits out the bottom.

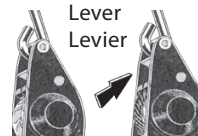

How To Use,

- Attach cinch hook to a secure object.
- Wrap rope with hook over or around load, then attach hook to a secure object.
- Pull free end of rope until desired tightness is reached.

To release tension,

Press lever upwards, located above cinch spool.

 **WARNING:** Carefully evaluate actual workload prior to using cord. Do not exceed load limit of cinch or rope. Inspect rope and cinch before each use. Do NOT use if damaged. Avoid sharp edges, pinch points, abrasive or hot surfaces. Watch for shifting loads. Shifting loads can exceed the working load limit of the Marine Quick Cinch. The attachment of this product is critical and beyond the control of Attwood Marine which is NOT responsible for the attachment nor the installation. It neither guarantees, nor is liable for any damage resulting from its attachment or improper use. The liability of this product is limited to its purchase price if it proves to be defective in material and/or workmanship.
