Fish Attractant

BANG'S unique rendering process, with live bait, produces the natural concentrated oils of the most prevalent forage species. No other fish attractant borrows so much from Mother Nature. BANG gives the angler an edge by encouraging the fish to hold onto the bait longer. This gives you more time to set the hook. Choose from these Freshwater formulas: Shad, Crawfish, Combo, Garlic, Pure Craw, and Anise; or from these Saltwater formulas: Menhaden, Shrimp, and Crab. Available in 5 oz. aerosol or 16 oz. trigger spray.

FRESHWATER 5oz. Aerosol Formula:

Combo Item# 5-COM	Garlic Item# 5-GAR

Rigging the furnished HOOK into the hidden belly slot and BACK.

1.
Wet hook here to prevent tearing. Exit hook through bottom of lure.

2.
Rotate hook upward into hidden belly slot for best alignment.

3.
Continue to push the tip through the back to expose hook's tip.

3", 5", & 7" sizes have realistic bait fish shape and can be twitched on top or jerked below the surface. May be rigged Carolina-style for bass, trout, redfish, snook, and other species. Hooking the shad through the head gives it a great tail action, along with a back and forth darting motion.

THE SEA SHAD - With the extreme popularity of the Paddle Tail Shads on the Gulf Coast, and Bass Assassin's reputation for super soft "hold fish longer" plastics, we knew the Sea Shad would be a winner. Available in 4, 5 & 6 inch sizes.

When rigged with a 1/16 oz. to 1/4 oz. jighead, and bounced over shell reefs or sand flats... **HOLD ON!** The speckled trout and redfish cannot resist this phenomenal lure. The Sea Shad is unbelievable when sightcasting for feeding redfish. It's super soft plastic gives you great tail action with the slightest twitch of the rod. It's irresistible!

Boodah Shaker Jighead

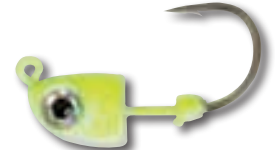

Our Boodah Shaker Jigheads feature a unique “keeper” on the shank of the hook, which holds the plastic on the hook better than our spring lock jigheads! They also have larger eyes for a more realistic look.
