**DIRECTIONS:** This concentrated formula may be diluted to meet specific performance needs.

**General Cleaning:** Dilute accordingly. Spray on surface (allow dwell time for heavy build up and stains), agitate with brush or cloth if needed, wipe clean with damp sponge or cloth; rinsing often. For fabrics and carpet, blot dry with clean, dry towel.

**Vinyl:** Spray on, dip a soft bristle brush into cold water, scrub in circular motion until product foams up and lifts stain, wipe with clean, damp cloth. Set in stains require dwell time. May be diluted 1.5 Cups per 1 Gallon Cold Water for general maintenance cleaning.

**Leather:** (dilute 1 Cup per 1 gallon Cold Water) Test on small area first, follow vinyl directions.

**Rubber RV Roof:** (Dilute 50:50) Spray directly on surface, agitate with a wet, soft bristle, scrub brush; rinse clean. To reduce future chalking and for added UV protection, follow up with an application of **Bio-Kleen Amazing Armor**.
