

Detailing Spray – Bio-Kleen Qwik Shine

- A biodegradable liquid spray wax for boats, rv, cars, trucks, airplanes and well, just about anything you can think to put it on.
 - A detailing spray is an easy way to quickly clean and remove dust, smudges, bird hits and water spots while maintaining a shine on your boat, rv, car or truck.
 - A spray on, wipe off detailing product that cleans while it shines. This spray wax gives you all of the gloss and protection of a wax in a fraction of the time. We like it when detailing takes less time. Don't you?
 - This detailing spray will enhance the depth of shine on your unit while also adding a micro-thin layer of polymer protection; this, in turn, creates a static free surface which helps.
 - This spray wax can also be used for boat, rv, car interiors; so things like your dash, vinyl and leather seats, etc. Using Bio-Kleen Qwik Shine on interiors gives you a low sheen shine and all the UV protection you need without a slippery residue.
 - A detailing spray that also deters water, dust, dirt, airborne pollutants and stains from the finish of your boat, rv, car or truck.
 - After applying Bio-Kleen Qwik Shine to the finish water beads up and rolls off just like a fresh wax.
 - Unlike most other spray waxes you will experience no smudging, streaking, hazing or residue left behind.
-

Uses:

Use on all boat, RV and automobile fiberglass, paints, clearcoat, metals, chrome, exterior trim, moldings, vinyl, leather, rubber, plastic, counters, interiors, dash and finished wood.

Green Cleaning Attributes

- UV Protection with SPF 40
 - 100% of the packaging is recyclable

 - Environmentally Friendly, Biodegradable, Non Aerosol, Ozone Safe
-

Maintain consistent shine and protection when used as a system with a **wax**. Try applying with a **microfiber towel** or a **wax applicator** you'll see the difference.

DIRECTIONS: Mist on cool, dry finish; buff lightly with a soft cloth. For best results we recommend washing surface with **Boat RV Auto Wash** and using a **microfiber towel** to buff finish. Maintain consistent shine and protection on marine and rv fiberglass and automotive exteriors when used as a system with **Wax**.

Typical applications for Qwik Shine will be about every 1-3 washes, or 4-6 weeks. Depending on the desired shine and protection.
