

How to Remove Salt Deposits – Bio-Kleen Salt Kleen

- Bio-Kleen Salt Kleen is a salt neutralizer that easily and safely removes salt build up from any surface.
 - Salt deposits are quickly neutralized, released and removed with each application.
 - Surfaces will be clean and coated for protection against rust and salt corrosion.
 - Ideal for cleaning and protecting surfaces exposed to salt water, coastal air and road salt.
 - Will not remove Boat Wax or regular waxes.
 - Concentrated, water-based formula.
 - Concentrated Cleaner: Highly effective allowing you to dilute per application; saving Time, Money, Transportation, Packaging and Shipping Costs. Therefore reducing the environmental impact.
-

Uses:

Use on boats, engines, RVs, automobiles, trailers, equipment, snow plows, floors and any surface with salt build up.

Green Cleaning Attributes

- Concentrated
- 100% of the packaging is recyclable
- No Animal Testing - No Animal Ingredients - Cruelty Free
- Environmentally Friendly, Biodegradable, Non Aerosol, Ozone Safe

Exterior Application: If necessary, remove excess debris to allow salt neutralizer to be applied directly onto surface.

1. Prepare a solution by adding 4oz Salt Kleen to every 1 Gallon of water (1:30 dilution) into a bucket.
2. Dip a wash brush or mitt into solution and scrub entire surface. Allow solution to dwell 1-2 minutes.
3. Rinse with water completely removing salt debris.

Application with Salt Kleen Proportioner: Fill cup with Salt Kleen concentrate; this will create a 1:128 dilution. Spray all contaminated areas. Allow to dwell 1-2 minutes. Rinse.

Interior Engine Application: Using a stainless steel proportioner at a 1:30 dilution ratio: Attach output to engine flush supply. Turn water on and start engine. Allow to idle 3-5 minutes, or until you see Salt Kleen (yellow-green in color) coming out through exhaust pipes or lower unit.
