

No. 855 *Leather and Vinyl Wax* **-LIQUID CONDITIONER AND PROTECTOR-**

1. **Function:** Combination conditioner + protector for leather/vinyl vehicle finishes

- Removes minor surface contaminants caused by time and weathering
- Restores and enhances appearance
- Preserves and protects condition of finish against future weathering, wear; cracking, oxidation
- NOT specifically designed for heavy cleaning
- Does NOT contain abrasives

2. **Recommended for:**

- Leather and vinyl surfaces; seating, upholstery
- Clean, as well as lightly stained/discolored/weathered surfaces
- Marine, automotive, aeronautical/aircraft, and RV application

2a. **NOT for use on:**

- Painted surfaces, fabric, unsealed leather suede or buck
- Exterior vehicle trim
- Surfaces unmentioned above, as testing has yet to be extensively conducted. Refer to Collinite directly with application inquiries.

3. **Directions for use:**

- Shake well before using.
- Apply THIN amount of No. 855 to applicator pad and apply to a small section no larger than 2X2 ft at a time. Do NOT overapply product.
- Rub well to loosen all tarnish, film oxidation etc. Reapply as necessary until surface is free of contaminants
- When product begins to dry, polish off with clean, dry soft cloth or microfiber towel

3a. **Application/Tech Tips:**

- Use in a well-ventilated area with protective eyewear and gloves.
- Applicator pads and removal towels should be clean, free of residue
- Do NOT apply wax to sections larger than recommended before removing, as prolonged drying or cure times may lead to wax hardening on surface; causing streaking or difficulty for some users to remove properly. User assumes risk if recommended cure times are exceeded.

Collinite

- Drying times may vary based on conditions (air and surface temperature, humidity, wind, sunlight etc).
- Avoid applying in extreme temperatures (over 80 degrees F or less than 55 degrees F). Surface temperatures should feel lukewarm-room temperature to the touch. Do not apply if surface feels cold or hot to the touch.

4. Additional

- Store product at room temperature away from fire or flame
- Discard product if exposed to frozen temperatures
- Keep cap or lid on product when not in use
- Do not alter product's composition or original packaging in any way

5. Safety

See MSDS

6. Physical

Product consistency: milky/creamy liquid*

Sizes available: 16 fluid oz
