

J-BRAID™ DARK GREEN

Dark Green that is more natural in situations where you may want to tie your hook or lure directly onto the line—without a leader.

J-BRAID™ CHARTREUSE

Chartreuse line is highly visible and this helps detect even the slightest line movements.

J-BRAID™ WHITE

A popular offshore line color ideal for low light or dark conditions. White also appeals to fish looking up against the sky and water surface.

J-BRAID™ MULTI-COLOR

For deep drop fishing. Color changes every 10 meters for easy depth indication, line movement, and quick programming into Dendoh reel memory for maximum readout accuracy.

Rely on premium fishing gear & accessories by Daiwa if you're looking for quality and efficiency.
