

PERSONAL FLOTATION DEVICE DONNING INSTRUCTIONS

USCG TYPE I OFFSHORE PFD

Model 400RT Adult Universal Size, USCG Approval 160.055/221/0
Model 401RT Child Size, USCG Approval 160/055/217/0

Datrex 400RT and 401RT are the most comfortable Type I USCG. It is designed for maximum wearability and buoyancy for offshore and rough waters where rescue may be delayed.

WHEN WORN PROPERLY THIS PFD CAN SAVE YOUR LIFE.

FOLLOW THE SIMPLE DONNING INSTRUCTION FOR PROPER FITTING

1

Make certain reflective tape is on outside of PFD. Put arms through arm holes. Pull and tie a knot on top upper tie tape.

2

Secure Body Strap by connecting snaphook to D-ring and pull tight as possible.

3

Pull and knot lower Tie-tape tightly and make a knot.

4

If jumping overboard, hold PFD securely at neck line to avoid PFD hitting chin.
