

# Dock Side

## "Full Face" Profile

### Mounting Instructions

Note: If you have purchased this profile in a roll, before starting installation, unroll the strip from the carton and lay the strip out in the sun for a period of time until the strip lays flat.

The Full Face Dock Bumper Profile can be mounted to the side of any dock with a 2" x 6" face or greater

Space the nails and/or screws on 8" centers

If the profile must be cut to length use a hand saw and deburr the cut end.
