

Tools Required:

- Drill Bit 3/8" (wood) or 1/2" (concrete)
- 5/16" wrenches or sockets

PART LISTING

PART	QTY.	DESCRIPTION
A	2	Base
B	2	Post
C	4	Arms
D	4	Straps
E	6	5/16" x 2-1/4" Hex Head Bolt
F	6	5/16" Nuts and Washers

Dock Assembly:

1. Place Base (A) in desired location on dock and mark hole locations onto dock surface. Drill through surface using appropriate drill bit for your dock. Fasten Base with 1/2" Lag Bolts or through bolts (not supplied) using predrilled holes.
2. Insert Post (B) as shown into Base and fasten using supplied Hex Head Bolt (E), Washer and Nut (F).
3. Attach Arm (C) using supplied Hex Head Bolt (E), Washers and Nuts (F) as shown.
4. Insert Straps (D) through holes on Arms (C).

Wall/Vertical Assembly:

1. Place Post (B) in desired location on wall and mark hole locations (X) onto wall surface. Drill through surface using appropriate drill bit.
2. Remove Post and attach Arms (C) using supplied Hex Head Bolts (E), Washers and Nuts (F) as shown.
3. Reposition assembled rack on wall and fasten with appropriate fasteners (not supplied) using predrilled holes.
4. Insert Straps (D) through holes on Arms (C).
