

Professional Series Bronze Stem

B260

Applications:

- Sport fishing boats above 26' (8m)
- Small to midsize commercial fishing boats

Notes:

- Included high performance fairing reduces drag and directs smooth water over the transducer's face for excellent echosounder performance at all speeds
- Includes temperature sensor
- Robust bronze housing and nut

Options:

- Non-duplexer version for dual transmission line sounders

Parts & Accessories:

Hull Nut: **02-036-2**

Standard Fairing: **33-030**

High Performance Fairing: **33-391-01**
