

## Warranty

Gator Waders warranty program covers any Manufacturer's defect in the workmanship and materials of your Gator Waders gear. This warranty program applies to consumer use only and is null and void if the product is used in a manner for which it is not intended. The warranty program period for your Gator Waders gear is 12-months from the original date of purchase. This warranty program is for the original consumer purchaser only. It is not transferable. Proof of purchase must be provided with any replacement claim submitted. By definition, a Manufacturer's defect is caused by some error that occurred during the assembly of the product and was not intended to be a part of the product.

Gator Waders products are designed and constructed for maximum comfort, mobility, and durability with the sole purpose of keeping you comfortable, dry, and protected. While Gator Waders products do excel in all of these aspects, they are not indestructible. Sharp rocks, stiff limbs, and unexpected falls can push ANY fabric or clothing type beyond its limits. We are sure that our customers can understand that as a company we are unable to cover unforeseen accidents or damage to your waders that are outside of the control of Gator Waders.
