Grote's submersible trailer lamps are designed to outperform any others with enhanced durability, longer life, and better end user value.

- Available in two kits, with or without clearance marker lamps, they combine rugged LED performance with totally submersible capability.
- Multifunction lighting kit provides
 - Stop/tail/turn
 - Side and rear reflectors
 - Clearance/marker lamps
 - License lamp
- Kit with clearance/marker lamps includes all lighting equipment needed for trailers less than 80" wide including all necessary mounting brackets, hardware and installation guide.
- Ideal for utility, snowmobile, camping, motorcycle, horse, and boat trailers.
- Individual replacement lamps are available for S/T/T and clearance/marker functions.
- Popular square design fits standard mounting hole configurations.
