Grote's Submersible LED Trailer Lighting Kits: enhanced durability, longer life, and better end-user value.

Available in our popular square design, these 7-function Submersible LED Trailer Lighting Kits combine rugged LED performance with total submersible capability. These kits are newly packaged to take up less space and include an interactive "Try Me" feature.

Kits include stop/tail/turn lamps, optional clearance marker lamps, trailer harness, license bracket, and mounting hardware required for easy installation.

Multifunction lighting kit provides: Stop/tail/turn, side and rear reflectors, clearance/marker, and license functionality.

- Replacement lighting kit for submersible LED trailer lights
- Popular square design
- 7-function submersible kit
- Kit includes lamps, trailer harness, license bracket and mounting hardware
- Ideal for boat trailers, utility trailers, and other light-duty, recreational trailers
