

Wakeboard and Ski Boat Ballast Pumps

JABSCO OFFERS THE SOLUTION FOR WAKEBOARD AND SKI BOAT WATER BALLASTING SYSTEMS!

Utilizing our reversible flexible impeller pump technology, ballast systems can be filled or emptied with the Ballast Puppy / 9 GPM or NEW Ballast King / 15 GPM. Ballast Systems fitted with our Reversing Polarity Switch can fill or empty ballast tanks with one pump in minutes.

FEATURES

- Includes Run-Dry Impeller
- 9 GPM (34 LPM) or 15 GPM (57 LPM) Flow Rates
- Ballast Puppy adds approximately 80 pounds of ballast water per minute
- Ballast King adds approximately 125 pounds of ballast water per minute
- Reversible pumps both fills and empties ballast tanks
- Ballast Puppy Self-Priming to 3 ft., Ballast King Self-Priming to 4 ft.
- Available with or without Reversing Polarity Switch to fill or empty ballast tanks
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protected)

a xylem brand
