

SWEET SWIVEL

A revolutionary 359° swivel clamp lets you aim your music anywhere, anytime – with no tools required. The stainless-steel clamp automatically adapts to tube sizes ranging from 1-1/2 to 3-1/4 inches – vertically or horizontally, while the through-clamp wiring creates a clean look without binding posts.

LOUD 'N PROUD

KMTC Coaxial Tower Systems come loaded with powerful 8- or 6.5-inch midrange drivers and titanium tweeters. The injection-molded polypropylene speaker cones are UV-treated and matched with Santoprene® surrounds for excellent sound quality and durability in any weather.

*ASTM B117 200 hr. Salt Fog Test

*ASTM G154 400 hr. Accelerated UV Test

LONGER LIFE

Our molded ABS enclosures are made for long life on the water. The UV-resistant finish is anti-fading and anti-corrosion. Mounting hardware is forged from rustproof, 316L stainless-steel.

LED LOVE

With customizable LED lighting included, your speakers can match your boat's theme. Choose from seven colors to light up the night. Using the optional KMLC remote, you get 20 color options and 19 dynamic light modes (sold separately).
