KLYMIT 
Sleep Outside
.....
DESIGNED & TESTED
IN THE
WASATCH MOUNTAINS

We're here to make your outdoor experience the best one yet.

Born in the backcountry of the Wasatch Mountains and based in Kaysville, UT, Klymit has been challenging the conventional approach to outdoor gear since 2007. We know nothing ruins a camping trip like a poor night's sleep, which is why we work hard every day to create gear that is comfortable, easy-to-use, and engineered for every adventure. Our team designs and tests all of our gear in the illustrious deserts and mountains of Utah to ensure everything is **durable, high-quality, value driven and most importantly, comfortable.**

“An outdoor adventure can be swiftly spoiled by a poor night's rest; Klymit's focus is solely on preventing this from happening.”

— *Conde Nast Traveler*

A person wearing a pink beanie, a dark puffy jacket, and light-colored pants is sitting on a black camp stool, looking out over a calm lake. The sun is low on the horizon, creating a bright reflection on the water and a lens flare effect. In the background, there are large, rugged mountains with patches of snow. To the left, a white tent is partially visible, and a brown dog is sitting on the grass. The overall scene is peaceful and scenic.

“This brand has succeeded in winning the hearts of millions of customers with its super-affordable products.”

THE ALL-NEW EVERGLOW™ LIGHT TUBE

BRIGHT IDEA

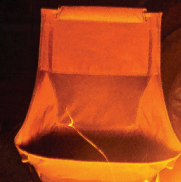

Go-anywhere, inflatable camp lantern

The Everglow™ Light Tube is an inflatable, easy-to-use light tube that provides both directional and lantern-style lighting. The efficient five-volt white LED light tube is perfect for camping and outdoor adventures. The Everglow™ Light Tube's inflatable chamber reduces harsh light by diffusing the LED light. It packs down to fit in your pocket and easily attaches to your tent, awning, or car door via a hypalon carabiner loop. Powered by a USB input. Light up your next adventure.

THE ALL-NEW HOMESTEAD™ AND HORIZON™ BLANKETS

WE'VE GOT YOU COVERED

Our new blanket line features a full range of blankets for every type of adventure from lightweight backpacking to plush luxury comfort. Every blanket is meticulously designed to be the best “one more piece of gear” you have to have on your next trip.

HORIZON TRAVEL BLANKET (a)

Meet your new must-have travel accessory. The Horizon Travel Blanket is the ultimate take-everywhere blanket. The blanket features four corner stake locations* perfect for securing your blanket to the ground for picnics and game day. Designed with durable, water resistant, lightweight fabric that packs down small. *Stakes not included.

HORIZON BACKPACKING BLANKET (b)

The Horizon Backpacking Blanket is a technical, lightweight backpacking blanket featuring a soft-touch, high performance, lightweight 20D polyester fabric. Synthetic high loft insulation keeps you warm on chilly nights. Quilted stitch pattern keeps insulation in place and eliminates cold spots. Perfect for fast and light adventurers.

HORIZON OVERLAND BLANKET (c)

The Horizon Overland Blanket is adventure ready. Tough, rugged, and durable, this blanket is designed for trailblazers who are hard on their gear. Featuring a soft fleece interior and a water resistant, durable PU coated ripstop exterior, the Horizon Overland Blanket is perfect for tossing down in the dirt.

HOMESTEAD CABIN COMFORTER (d)

The Homestead Cabin Fleece Comforter is the ultimate in luxury comfort. Wrap yourself up in this plush, soft, high loft, fleece-lined blanket with a durable, canvas exterior. Thick, synthetic high loft insulation will keep you warm while you cozy up next to the fire. Perfect for draping over the chair at the cabin or throwing in your RV.

THE ALL-NEW BIG COTTONWOOD SLEEPING BAGS

PLENTY OF ROOM FOR COMFORT

Four-season canvas sleeping bag with plenty of room for comfort

The Big Cottonwood sleeping bag is designed for those unwilling to sacrifice comfort. You'll forget all about your bed at home in this oversized, rectangular sleeping bag with plenty of room to stretch out. Featuring a rugged, canvas exterior with a soft-touch polyester liner, the Big Cottonwood's high loft synthetic insulation will keep you warm in below freezing temperatures. A drawstring shoulder baffle seals in warmth and eliminates a cold draft. This ultra-comfortable sleeping bag is perfect for base camping, vans, RVs, trailers, and cabins.

THE KLYMALOFT™ SERIES

THIS IS REAL COMFORT

Inflatable sleeping pads with plush foam toppers for unmatched comfort

At Klymit, we're on a mission to deliver superior sleep comfort for your best night of sleep outside. **When we set out to design the Klymaloft sleeping pad, we asked ourselves one question: how can we make sleeping outside more like sleeping at home?** The Klymaloft Series features an innovative air and foam design. A plush foam topper conforms to support the body and eliminate pressure points, while the underlying I-beam chambers create loft and stabilize the sleeping pad. The air and foam strikes the perfect balance between comfort, pack size, and weight.

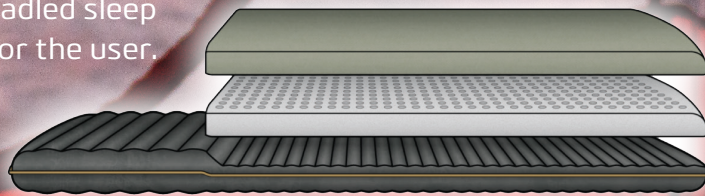

KLYMALOFT
 FOAM
 +
 AIR
 TECHNOLOGY

The Klymaloft Series features three sections: a **soft stretch polyester top**, a **layer of plush foam**, and a **section of I-beam air chambers** that vary in size. The small and large air chamber baffles support the foam topper resulting in a comfortable, cradled sleep position for the user.

What makes the Klymaloft series so comfortable?

“It’s tough to say you’ll get your best sleep ever when practically sleeping on the ground, but this sleeping pad ensures you won’t miss your bed too much. The Klymaloft’s **foam topper is the definition of comfortable**, delivering much-needed support and stabilization while you sleep.”

THE STATIC SERIES

CATCH SOME VVV'S

Our patented V-Chamber design offers a comfortable night of sleep at an optimized weight and pack size

We've designed our Static™ Series to be comfortable, lightweight, and packable because the last thing you need to worry about on your outdoor adventure is a good night's rest.

Since the inception of the original Static V®, new iterations have been engineered for every body and every adventurer—from the ultralight explorer to the family car camper and everyone in between. It's no wonder the Static V® has earned a loyal following, making Klymit the fastest growing sleeping pad company in the world.

MAIN FEATURES

Raised V-chambers create ultra-comfortable loft pockets that support your body's pressure points from head-to-toe, giving side, back, and stomach sleepers a generous bed of air

Deep welds between air chambers maximize the loft and warmth of your sleeping bag

Dynamic side rails keep you centered on the pad all night long

Support and comfort no matter how you sleep—on your side, stomach, or back

High quality, durable fabrics are soft against the skin, quiet to sleep on, and easily pack down to a small size

Limited lifetime warranty on every pad

Inflation is fast and easy; compatible with Klymit USB Rechargeable Pump and Rapid Air™ pump

THE INERTIA SERIES

EVERYTHING YOU NEED
AND NOTHING YOU DON'T

Advanced design & engineering for minimalist adventures

Inertia pads are engineered exclusively around features that deliver everything you need and nothing you don't for minimalist backcountry adventures. Each iteration provides support for your head, shoulders, hips, and feet while cutting ounces elsewhere. Unique cutouts in each Inertia pad maximize the loft & warmth of your sleeping bag, similar to our V-Chamber welds in the Static V™ line. The result is an unconventional design **perfect for a light, portable, and comfortable sleep experience.**

MAIN FEATURES

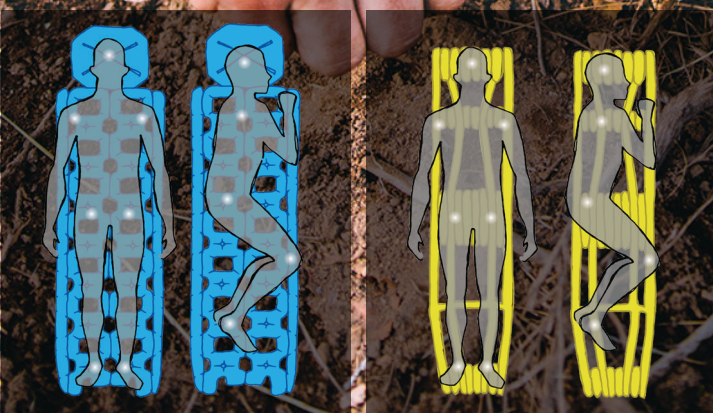

Minimalist Design advanced patterning removes all extraneous material to create an ultralight, minimalist design that delivers comfort and support

High quality, durable fabrics are soft against the skin, quiet to sleep on, and easily pack down to a small size

Body Mapping patterning places air only where padding is needed & eliminates them where they are not, allowing us to shed weight without sacrificing comfort

Inflation is fast and easy

Lifetime warranty on every pad

BODY MAPPING

Pressure points where your body is supported by Klymit's Inertia Series

THE KSB SERIES

COZY IN AND STRETCH OUT

Engineered with essential features, designed for every body

We engineer every KSB for **optimal thermal performance above all else**, because a bag that keeps you warm throughout the night is one of the most important pieces of gear you'll ever own. 650 fill power down top and synthetic fill bottom provides an exceptional warmth-to-weight ratio, as well as impressive compression ability when it's time to hit the trail. Add to that exclusive features like Length Locks™ that let you adjust your sleeping bag to match your height, as well as an anti-snag two-way zipper, stash pocket, draft collar, stretch baffles, an overstuffed foot box, and oversized options for people who want the space.

MAIN FEATURES

Move freely and stay warmer with flexible elastic stretch baffles that keep warm fill next to your body and stretch when you move or sit up

Customize the length of your bag from 82" to 74" or 67" to eliminate air pockets and maximize warmth with our innovative **Length Locks™**

Exceptional warmth-to-weight ratio comes from down fill top and synthetic fill bottom

Responsibly sourced down

High quality, durable fabrics are soft against the skin

Snag-free YKK zipper

Compression sack included

Water resistant, DWR coated fabric

Two-year warranty on every sleeping bag

KSB 35™

THREE-SEASON DOWN HYBRID MUMMY SLEEPING BAG WITH PLENTY OF ROOM FOR COMFORT

Weight	2.1 lb / 1.0 kg

INFLATABLE PILLOWS

USE YOUR HEAD

A basic necessity for any comfortable sleep system

When you sleep in your bed at home, a pillow is considered a must. It shouldn't be any different when you're sleeping outside. And no, a rolled-up sweater doesn't count. When your head is properly supported, the natural curve of your neck and your shoulders are supported, too. The result is a more restful sleep so you can enjoy your day outside.

MAIN FEATURES

- X-shaped welds** cradle your head while you sleep
- High quality, durable fabrics** are soft against the skin, quiet to sleep on and easily pack down to a small size
- Small pack size** makes our pillows the perfect accessory to a good night's sleep

THE CROSS CANYON SERIES

MAKE YOURSELF AT HOME

The Cross Canyon Tent Series is perfect for weekend warriors

Designed to deliver comfortable interior living space with exceptional storage options at a great value. The series features quality materials and premium aluminum poles. Two entry doors and dual overhead ventilation keep the tent cool and condensation free. Easy setup and takedown means you'll spend less time setting up and more time enjoying the outdoors.

MAIN FEATURES

Rectangular freestanding tent design allows for **multiple sleeping configurations**

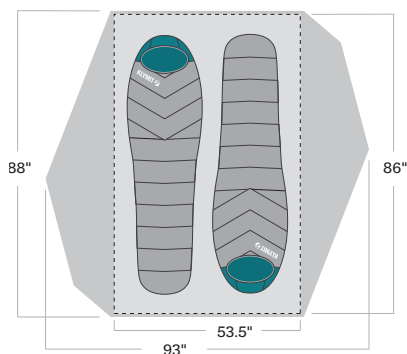

Innovative patent pending Cross Canyon Mat™ doubles as a roll-style stuff sack and ensures clean work surface for tent set-up and ease of repackaging

Aluminum poles create a robust and lightweight structure

Multi-anchor point front vestibule creates a spacious exterior storage area protected from wind and rain

Use the Cross Canyon™ Footprint, poles, rainfly, and stakes for **fast fly mode** to reduce weight and pack size

Pack Size	10 x 5.5 in / 25 x 14 cm
Packed Weight	16 oz / 454 g
Fabric	75D Polyester PU 3000mm
Warranty	Two-Year Warranty
SKU	09C4GRFPD

Your best night of Sleep Outside™ starts with the Maxfield Tent Series.

The series offers an ultra-lightweight structure without compromise.

Designed to deliver comfortable interior space, revolutionary packability, and intelligently designed storage. Large vestibules

maximize exterior equipment storage, resulting in more usable interior space. Sil-nylon fabrics and premium aluminum hardware deliver maximum strength without sacrificing weight.

MAIN FEATURES

Innovative patent pending Maxfield Mat™ doubles as a roll-style stuff sack and ensures clean work surface for tent set-up and ease of repackaging

Vestibule Space allows a large storage area without blocking front door access

Three-port ventilation optimizes airflow, decreasing condensation

Use the Maxfield™ Footprint, poles, rainfly, and stakes for **fast fly mode** to reduce weight and pack size

BACKPACKS

CARRY ON

Feature-rich packs that make it easier to stay comfortable on the go

Utilizing many of the same engineering principles from our V-Chambered Static V™ line of sleeping pads, we've introduced a whole new category of backpacks: Air Frame™ support. This innovative approach to weight distribution uses pressurized air to direct the load toward your center of gravity while maintaining optimal hip comfort, spine support, and shock absorption. Every Air Frame™ pack also features a hand pump that conveniently stows away and can be used when necessary to fine-tune the air pressure in your frame for truly personalized comfort. Our feature-rich packs are the best way to carry your entire Klymit sleep system.

MAIN FEATURES

Air Frame Technology™

leverages the tech and comfort of our sleeping pads in a pack frame

Full range of motion the technology's inherent flexibility allows the pack to move with your body for exceptional balance and agility

Adjustable pressure

integrated pump allows on-the-fly adjustments to control level of padding, support and flexibility

Ultralight because it uses air, not plastic or aluminum

Two-Year Warranty on every pack

MOTION 60™

ADJUSTABLE MULTIDAY PACK WITH THE SUPPORT AND COMFORT OF AIR FRAME TECHNOLOGY™

Weight	48 oz / 1,306 g
