

STEEL SERVICE CENTER

Better materials, better construction, and the best service

efficiency, and exceptional value.

Lifetime Metals has the materials you need at a competitive price. Lifetime buys its steel coil from all over the world, so pricing will always be up to date with market prices and competitive with larger suppliers. And with a full-service fabrication facility, steel is received, processed, and fabricated at the same location, giving us tight control over the quality of our finished products.

Better materials, better quality, and the best service – expect it all from Lifetime Metals.

Lifetime Metals is the Rocky Mountain region's leading supplier of processed steel. Our state-of-the-art steel service center is located in Clearfield, Utah, and houses some of the industry's most innovative equipment including a slitter, leveling lines for sheet steel, mechanical tube mills, roll formers, and stamping. Our trained and certified staff manufactures quality steel products, customized to your needs. Whether you require roll forming, mechanical tubing, stamping, leveling, or slitting, we can provide you with assured quality, shipping

LEVELING LINE

Steel manufacturing perfected

- 50,000 lbs. capacity

Before we do anything with our steel, we ensure it's level and even. Our leveling capabilities lead the metals market, so whether your sheet steel needs hot rolled, cold rolled, galvanized, or oil pickling requirements, you'll get exactly what you need.

Leveling Line Specs

- Gauge Range 0.020 to 0.250
- Widths from 10" to 74"
- Lengths from 24" to 510"
- Cold Rolled, Hot Rolled, Galvanized, Pickled in Oil, Mild Steel, to Grade 60

SLITTER

Advanced steel-manufacturing technology

- Gauge Range .010" to .250"
- Packaged to Meet Your Specifications

We use the only finest quality steel coil, and we slit it, slice it, cut it, and dice it into the shapes you need. Everything we process comes direct to our facility by rail car, giving us the buying power and flexibility to handle your needs. So regardless of the size of your job, we can do it.

Slitter Specs

- State-of-the-Art High-Speed Looping Slitter
- 72.00" Maximum Outer Diameter
- 60,000 Pound Maximum Capacity
- Master Widths to 60" Maximum

TUBING

Providing tubing for all needs

We have many shapes and sizes of mechanical or structural tubing available. Simple round, less-than-simple square, or something different all together. We can provide tubing the size, length, and style you need.

Mechanical Tube Specs

- Sizes and Shapes Available From .500" to 4.500"
- Dimple-Free Precision Cut-Off
- Custom Lengths Available
- Offline Cutting Capabilities

ROLL FORMING

Lifetime offers in-house product development

We're a full-service roll-forming outfit, complete with precision cut-offs and pre and post-punch forming. If you can dream it up, we can produce it. With in-house development and prototyping, anything is possible.

Roll Forming Specs

- Two 14-Stand Roll Formers
- Pre-Punch/Post-Punch Forming
- Precision Cut-Off
- In-House Product Development and Prototyping
- Custom Orders Accepted

STAMPING

Tooling and design offering

Our minster presses are equipped to stamp out a wide variety of steel parts. We've been making parts of all shapes and sizes for 15 years, so there is no challenge we can't handle. Our capabilities allow us to produce stamped steel for any need.

Stamping Specs

- 400-Ton Press, 96" x 48" Bed Size
- 160-Ton Press, 63" x 33.5" Bed Size
- 20,000 Pound Coil Capacity
- In-House Tooling and Design
- Full-Progressive Tooling

FACILITIES

Ideal proximity for shipping and receiving

Located just 30 minutes north of Salt Lake City International Airport, Lifetime Metals is in a superior location with strategic access to interstate highways and rail services adjacent to our steel service center. Our location in the rocky mountain region allows minimal shipping to western United States customers, including the Pacific Coast regions.

ADDITIONAL SERVICES

More than just steel

available

Shipping - Lifetime's shipping volume allows competitive shipping costs for your product

Plastics Facilities - Blow Molding, Customized Mold Making, Injection Molding, and Robotics

Lifetime is more than a basic steel service center. If you need something custom, we can make it happen for you. We can handle any custom-design product that fits your specific requirements. And, if you need design help, we have superior engineering capabilities on-hand to help meet your desires.

Engineerings - Professional staff to help design, test, and manufacture your product

Prototypes - Assembly and packaging, engineering, warehousing, and "Under-Roof" warehousing
