

# MagicEzy 9 SECOND CHIP FIX™

## Fix & Color Fiberglass Damage in Seconds.

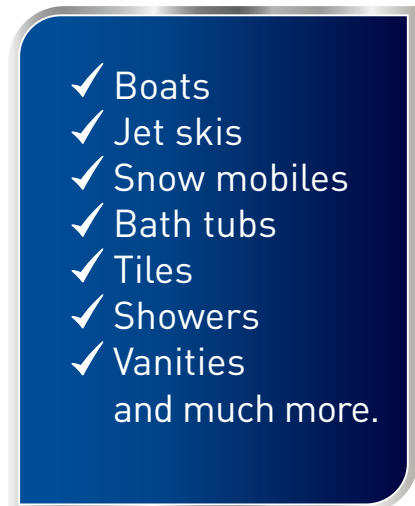

No sanding. No mixing. No Odor.

**MagicEzy 9 Second Chip Fix™**  
is a revolutionary, one-part  
nano-filler that fixes and colors  
chips, cracks and deep scratches  
in one application.

*Plus, it's easy to use - even for a novice.*

- Suitable for cosmetic AND structural repairs
- Structural grade adhesion for long-lasting repairs
- High elasticity so it flexes with your boat
- Perfect for fiberglass, gelcoat, wood, ceramics,  
\*plastic, \*aluminum and masonry.

\*For plastic or aluminum surfaces, prime the surface first with MagicEzy Mega Fusion.

Available in 11 popular colors:

Structurally repair  
these types of  
damage and  
more:

**"It's new technology"**

S. EVANS - Marcoola, Australia

*"It's just a matter of squirting it on there and wiping off the excess. I'd definitely recommend this compared to what I've seen with other fiberglass processes".*

Watch Steve's

**Product suitability:**

- Water resistant - use on surfaces above the water line.
- Interior / exterior use.
- Can be drilled and sanded.
- Water soluble - easy water clean up.
- Can be painted with water-based paint.
- Do not use below 50°F/10°C.

**"I'm shocked, I just can't believe it"**

G. MAHON - Caloundra, Australia

*"The two chips on my boat have completely gone. It's just amazing! It was like they were never there. I will definitely be recommending this product".*
