The World's Greatest Grills on Land or Sea

All New! Completely Redesigned Gourmet II

Mounts & serving shelves sold separately, fuel canisters not included

"Newport II" Infrared Gas Grill A10-918-2GS
Grill area: **162 sq. in.** *(1045 sq. cm.)*
9 x 18 in. *(23 x 46 cm)*

"Catalina II" Infrared Gas Grill A10-1218-2GS *(shown)*
Grill area: **315 sq. in.** *(2032 sq. cm)*
Primary: **12 x 18 in.** *(30 x 46 cm)*
Secondary: **5-1/2 x 18 in.** *(14 x 46 cm)*

"Monterey II" Infrared Gas Grill A10-1225-2GS
Grill area: **420 sq. in.** *(2710 sq. cm)*
Primary: **12 x 24 in.** *(30 x 61 cm)*
Secondary: **5-1/2 x 24 in.** *(14 x 61 cm)*

CE *CE Approved* for use in Europe

AGA Approved for use in Australia

NZ *NZ Approved* for use in New Zealand

CSA Approved for use in North America

1. **New Ultra High Temp Glass Viewing Window**

2. **New Completely Redesigned Combustion System** *Won't blow out in windy conditions*

3. **New Advanced Electronic Pulse Ignition System** *Lights first time, every time*

4. **Infrared Radiant Screens** *Intense even heat for searing • reduces flare-ups • eliminates blow outs*

5. **Stainless Steel Hermetically Sealed Thermometer**

6. **Perfectly Balanced Lockable Lid** *Won't slam shut • secures all inner components for transport*

7. **Full Double Lined Lower Safety Shell** *Funnels grease into front access grease tray reducing flare-up & heat discoloration.*

8. **Sectional Grill Grates** *Durable Stainless Steel • fit nicely in sinks or dishwashers*

9. **Warming Rack/Secondary Grilling Area** *For slow grilling or warming (Catalina and Monterey models only)*

10. **Stainless Steel Dual Element Infrared Radiant Plate** *Infrared technology • high even radiant heat • higher heat with less fuel • easy to clean*

11. **Turbo Burner Design** *Durable Stainless Steel • anti-blow-out • high even heat • premixes air and fuel for consistently hot, blue flame*

12. **Integrated Fold-Away Legs** *For on-shore use • completely hidden and out of the way when not in use*

13. **Front Access, Lock-In-Place Grease Tray**

14. **Swiveling Control Valve/Regulator** *Allows quick, safe canister exchanges while grilling*

Our top of the line Gourmet Series II Infrared Grills are finely crafted and always ready for action. Their beautiful, elegant design, with no sharp edges, glass viewing window, new combustion system, and electronic pulse ignition system is deigned to perform in the most difficult windy conditions.

Magma's "Anti-Flare" Infrared technology produces intense, evenly distributed heat and immediately emulsifies drippings giving your meal a great smoky flavor. Constructed in the USA of 100% 18-9 mirror-polished marine grade stainless steel to withstand even the harshest of environments. The primary and secondary grilling surfaces give you the option of searing, slow cooking, or warming. The swiveling control valve/regulator, designed for 1 lb. disposable propane canisters, allows for quick, safe fuel canister exchanges. All Magma gas grills can easily adapt to existing on-board propane (LPG) or natural gas (CNG) fuel systems with one of our optional control valves.

The Magma Advantage

• ALL NEW COMPLETELY REDESIGNED COMBUSTION SYSTEM, WON'T BLOW OUT
• ALL NEW ADVANCED ELECTRONIC PULSE IGNITION, LIGHTS FIRST TIME EVERYTIME

The Magma Advantage

ChefsMate™ Gas Grill A10-803
Grill area: 9 x 18 in. *(23 x 46 cm)*
162 sq. in. *(1045 sq. cm)*

Meticulous attention to even the smallest details creates the finest value grills available. Wind tested for perfect even heat distribution, these grill's offer the cooking performance usually only found in large, back yard grills costing much more. Easily transported, the Fold-Away legs are out of the way on-board, but readily available for that quick picnic on shore. The Snap-out radiant plate provides easy access for clean up yet allows the flame kissed flavor that makes for really memorable meals onboard or ashore. Designed for beauty and performance, you'll find that the Connoisseur Series grills are constructed flawlessly for years of dependable use. The swiveling control valve/regulator, designed to use 1lb. disposable propane fuel canisters, allows for quick, safe fuel canister exchanges or easily adapt grills to existing on-board low pressure propane (LPG) or natural gas (CNG) fuel systems.

Completely Assembled

Mounts & Fuel Canisters sold separately

Enhance your grilling experience with Magma's new Marine Kettle 3 Combination Stove and Gas Grill. A redesigned version of our Marine Kettle 2, these versatile, portable grills include features that are both useful and user friendly. Incorporated with a new dependable electronic pulse ignition system that lights first time, every time. The mirror polished marine grade stainless steel construction provide superior corrosion resistance, in even the harshest environments, while adding years of life to the grill. Dependable, even in a stiff breeze, due to the virtually blow-out proof turbo venturi tube design, while the patented heat distribution system and burner directs more heat to the cooking surface than any other grill brand. The included swiveling control valve / regulator is designed to connect to 1lb. disposable propane fuel canisters and allows for quick, safe canister exchanges. Or with the purchase of an optional low pressure control valve, easily adapts to any existing on-board LPG (propane) or CNG (natural gas) fuel system. New features combined with Magma's patented radiant plate and dome system, make this the only boat grill that is truly a grill, stove, or oven -- a great advantage to boats without a galley, or if the crew just wants to cook outdoors.

Patented Hi Tech Radiant Plate & Dome System.
Allows use as a grill, stove, or oven. Perfect even heat as a grill or direct open flame cooking as a stove.

A10-207-3 Original Size

The Magma Advantage

Designed for economy without sacrificing functionality. 100% 18-9 mirror polished marine grade stainless steel construction, provides superior corrosion resistance. Using Magma's time tested, high efficient radiant plate heat distribution system in conjunction with convection heating technology to achieve hot, even temperatures very quickly while using a minimum of fuel for searing steaks and fish or just grilling up some burgers or dogs.

Includes a perfectly balanced hinged lid that won't slam shut, with a sturdy heat-resistant cast plastic "Stay Cool" handle. An indexed bowl assembly which enables grill to be rotated allowing lid to be used as a wind shield. The redesigned turbo venturi tube makes it dependable in even a stiff breeze, virtually blow-out proof and a swiveling control valve/regulator, designed to use standard, 1-lb. disposable propane fuel canisters, allows for quick, safe fuel canister exchanges or easily adapts to an existing onboard LPG (propane) or CNG (natural gas) system. These grills quickly disassemble without tools for easy clean up.

Mounts sold separately

Instantly disassembles without tools for easy cleaning.

1 **100% 18-9 Mirror Polished Stainless Steel** *For lasting beauty and superior corrosion resistance*

2 **Balanced Hinged Lid** *Won't slam shut*

3 **Attached, Rotating Adjustable Cooking Grill**

4 **Draft Door Assemblies** *Convenient temperature control*

5 **Lower Charcoal Grate and Sealed Ash Compartment**

6 **Indexed Bowl and Lid Design** *Before lighting, grill may be rotated placing lid to act as a windshield in gusty wind conditions*

7 **Magma's Patented Grill Design** *Utilizes both radiant and convection cooking • quickly comes to temperature • efficient grilling with minimal charcoal usage*

A10-104 **Original Size**
Diameter 15 in. *(38 cm)*

A10-114 **Party Size** *(shown)*
Diameter 17 in. *(43 cm)*

The Magma Advantage

It is meticulously crafted of 100% 18-9 mirror polished stainless steel for maximum corrosion resistance. Starts easily in windy conditions by using the lid as a windshield. You obtain perfect results through use of the rotating, adjustable height cooking grill and the variable temperature draft control door. Our "Marine Kettle" design allows oven type baking to enhance the grill flavor while retaining the natural juices in the food. It will cook more food faster on less grill area than any other charcoal grill. Safety and efficiency are obtained by closing the temperature draft control door and extinguishing the coals for future use.
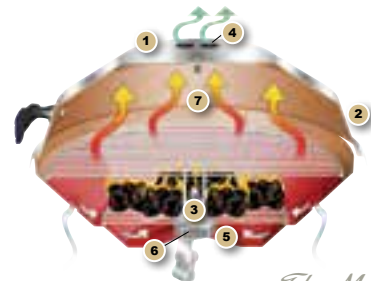

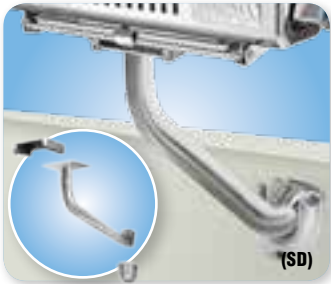

➤ **STANDARD DUTY MOUNT (SD)** *Designed for use while anchored or moored. Though strong and versatile, should be stowed while underway.*

BOAT STABILIZER

R10-707

R10-702

The Quietest, Most Effective Anti-Roll Device - Guaranteed

This hinged-wing hydrodynamic stabilizer relies on shape rather than weight,
making it more efficient and easier to handle. Attaches to any sailboat boom
or spinnaker pole. Or, install our 3-piece telescoping outrigger.
