# CombiMaster 24/3000-60 (230 V)

Product code: 35023000

Designed with the customer in mind and using the latest technology, the CombiMaster range is all about user-friendliness and reliability. But don't let that friendly appearance misguide you: the powerful CombiMaster range drives even the heaviest and most sensitive loads with ease!

With the CombiMaster, power dips and failures belong to the past. The automatic AC transfer system switches between generator or mains and inverter output, ensuring a constant power supply. Its *Power Assist* function prevents tripping of the mains fuse in case you're connected to a weak land line or small generator.

The CombiMaster range delivers unmatched performance and value for money. As you would expect from Mastervolt, the CombiMaster is completed with MasterBus, CZone and NMEA 2000 compatible communication, allowing for a broad range of monitoring and system integration options.

### **Features**

- · Most compact and lightweight Combi in its class.
- · Reliable, hum-free and longer operation from your batteries.
- · Starts even the heaviest and most sensitive loads.
- · Intelligent 3-step+ battery charger for faster and safer charging.
- · Automatic switching between mains and inverter mode.
- · Power Assist prevents blown mains fuses.
- · Generator compatible.
- · Integrated CZone, MasterBus and NMEA 2000 communication.
- · Quick installation with heavy duty connections.
- · E-mark certified.

### **Remote Control and Monitoring options**

- · MasterBus compatible via SmartRemote or EasyView 5 display.
- · CZone / NMEA 2000 compatible via Touch 5 or Touch 10 display.
- · NMEA 2000 compatible via 3rd party multifunctional display.

# Specifications

### **Specifications sine wave inverter**

Nominal DC voltage 24 V (20.4-32 V)

Output voltage 230 V

Output frequency 50/60 Hz (configurable)

Output waveform true sine

Continuous power at 40 °C / 104 °F, cos phi 1 3000 VA / 2600 W Peak power (30 sec) 4500 VA / 3900 W 6000 VA / 5200 W Surge power (5 sec)

Max. efficiency 93 %

Battery no-load power consumption 30 W (on mode) / < 1 mA (off mode)

10 W Energy saving mode consumption Synchronise with mains yes

### **Specifications battery charger**

Input voltage range 170-280 V Max. input current 13 A (adjustable)

Max. charge current at 40 °C / 104 °F 60 A at 28.5 V (configurable)

Battery temperature sensor yes, included

Battery voltage sense automatic compensation

### **Specifications transfer system**

AC input 25 A (switched)

AC output 38 A AC input fuse ves Transfer speed

Transfer voltage range wide: 90-280 V / narrow: 170-280 V

40-65 Hz Transfer frequency range

## **General specifications**

Display/read-out LED display Dimensions, hxwxd 448 x 284 x 155 mm

17.6 x 11.2 x 6.1 inch

Weight 9.3 kg 20.5 lb

Approvals CE, E-mark, AZ/NZS

### **Technical specifications**

Charge characteristic IUoUo, automatic / 3-step+ for flooded, Gel/AGM and MLI, configurable

Recommended battery capacity 180-500 Ah (based on gel batteries, may differ for other types)

yes, configurable by means of mechanical jumper Ground relay

Temperature range (ambient temp.) -25 °C to 60 °C, derating > 40 °C

-13 to 140 °F vario fan Cooling

Protection degree IP23 (vertical mounting) Safety class IEC protection class I

**Humidity protection** conformal coating, max. 95 % relative humidity, non condensing Protections over-temperature, overload, short circuit, high/low battery voltage

yes

yes, supports AC input with power from the battery Power Assist

Power Sharing yes, allows you to select AC Input fuse setting MasterBus compatible ves

CZone / NMEA 2000 compatible
