CombiMaster 24/3000-70 (120 V)

Product code: 35523000

Designed with the customer in mind and using the latest technology, the CombiMaster range is all about user-friendliness and reliability. But don't let that friendly appearance misguide you: the powerful CombiMaster range drives even the heaviest and most sensitive loads with ease!

With the CombiMaster, power dips and failures belong to the past. The automatic AC transfer system switches between generator or mains and inverter output, ensuring a constant power supply. Its *Power Assist* function prevents tripping of the mains fuse in case you're connected to a weak land line or small generator.

The CombiMaster range delivers unmatched performance and value for money. As you would expect from Mastervolt, the CombiMaster is completed with MasterBus, CZone and NMEA 2000 compatible communication, allowing for a broad range of monitoring and system integration options.

Features

- · Most compact and lightweight Combi in its class.
- · Reliable, hum-free and longer operation from your batteries.
- · Starts even the heaviest and most sensitive loads.
- · Intelligent 3-step+ battery charger for faster and safer charging.
- · Automatic switching between mains and inverter mode.
- · Power Assist prevents blown mains fuses.
- · Generator compatible.
- · Integrated CZone, MasterBus and NMEA 2000 communication.
- · Quick installation with heavy duty connections.
- · E-mark certified.

Remote Control and Monitoring options

- · MasterBus compatible via SmartRemote or EasyView 5 display.
- · CZone / NMEA 2000 compatible via Touch 5 or Touch 10 display.
- · NMEA 2000 compatible via 3rd party multifunctional display.

Specifications

Output waveform

Max. efficiency

Specifications sine wave inverter

Nominal DC voltage 24 V (20.4-32 V)

Output voltage 120 V

Output frequency 60/50 Hz (configurable)

Continuous power at 40 °C / 104 °F, cos phi 1 2600 W
Peak power (30 sec) 4500 W
Surge power (5 sec) 6000 W

Battery no-load power consumption 30 W (on mode) / < 1 mA (off mode)

Energy saving mode consumption 10 W Synchronise with mains yes

Specifications battery charger

Input voltage range 90-140 V
Max. input current 25 A (adjustable)

Max. charge current at 40 °C / 104 °F 70 A at 28.5 V (configurable)

Battery temperature sensor yes, included

Battery voltage sense automatic compensation

Specifications transfer system

AC input 30 A (switched)

AC output 55 A
AC input fuse yes
Transfer speed 10 ms

Transfer voltage range wide: 70-140 V / narrow: 90-140V

Transfer frequency range 40-65 Hz

General specifications

Display/read-out LED display
Dimensions, hxwxd 448 x 284 x 155 mm
17.6 x 11.2 x 6.1 inch

Weight 9.3 kg

20.5 lb

true sine

93 %

Approvals ABYC A31, UL1236, UL1741, SAEJ1171

Technical specifications

Charge characteristic UoUo, automatic / 3-step+ for flooded, Gel/AGM and MLI, configurable

Recommended battery capacity 180-500 Ah (based on gel batteries, may differ for other types)

Ground relay yes, configurable by means of mechanical jumper

Temperature range (ambient temp.) -25 °C to 60 °C, derating > 40 °C

-13 to 140 °F Cooling vario fan

Protection degree IP23 (vertical mounting)
Safety class IEC protection class I
Humidity protection conformal coating, max. 95 % relative humidity, non condensing

Protections over-temperature, overload, short circuit, high/low battery voltage

Power Assist yes, supports AC input with power from the battery
Power Sharing yes, allows you to select AC Input fuse setting

MasterBus compatible yes
CZone / NMEA 2000 compatible yes
