

NEW

MINN-KOTA

ULTREX

NO COMPROMISE.

Minn Kota's new Ultrex gives you the control of a Fortrex®, plus all the capabilities of i-Pilot® or i-Pilot® Link™. Get ultra-responsive, comfortable Power Steering with GPS-powered tools like Spot-Lock, and change the way you fish forever.

POWER STEERING

The same heel/toe steering you're used to, made easier. Power Steering reduces steering effort and foot fatigue, making Ultrex the smoothest, most responsive motor you've ever driven.

STEERING LOCK

When you take your foot off Ultrex's foot pedal, the motor head remains pointed in the direction you left it last, without recoil or readjustment.

REINVENTED SPOT-LOCK

Enhanced to be the most accurate electronic GPS anchor ever, Spot-Lock holds you on a spot with unparalleled precision.

ULTREX FOOT PEDAL WITH SPOT-LOCK BUTTON

Features heel-toe Power Steering and new AutoPilot and Spot-Lock buttons for hands-free navigation and anchoring. Includes 5' cord.

NEW I-PILOT OR I-PILOT LINK WITH NEW PHONE APP

Boat positioning becomes automatic with the redesigned, GPS-powered i-Pilot or i-Pilot Link system. i-Pilot lets you set Spot-Locks, record paths, control speed and steering, and more. Link does all that plus the ability to control your motor from your Humminbird, follow depth contours, and automatically navigate to your favorite spots. Both systems feature reinvented Spot-Lock - the most accurate electronic GPS anchor ever - and have redesigned remotes with larger screens, more options, and Bluetooth technology, so you can connect to your smartphone for quick control of basic functions and easy software updates.

LIFT-ASSIST

Cuts the weight of stow and deploy in half, making it as easy as lifting your SUV tailgate.

MONO-ARM DESIGN

The solid, one-piece construction of Ultrex's Mono-Arm bracket gives it strength that's unmatched by any other, for less wear, longer life and quieter operation.
