

WATER RESCUE DRY SUIT

WATER RESCUE DRY SUIT / MSD576

The MSD576 is the next evolution of Mustang Survival's constant wear dry suit. It is based on the functionality of our legendary Swift Water Rescue Dry Suit and is available in sizes M-XXL. We have updated the design and added several new features to improve the mobility and function specific to water rescue professionals.

Exclusive to Mustang Survival, the MSD576 features Rapid Repair Technology™, which enables users to field replace neck and wrist seals and repair small leaks in an hour or less.

FEATURES

1. GORE-TEX® waterproof and breathable dry suit fabric
2. Ballistic nylon reinforced neoprene elbow pads
3. YKK metal entry zipper
4. Adjustable waist band
5. Rapid Repair Technology™ enables users to field replace wrist seals in an hour or less (trim-to-fit neoprene wrist seal standard)
6. Ballistic nylon reinforced seat
7. CORDURA® reinforced overcuffs with **hook and loop fastener** closures for adjustability
8. Integrated universal size GORE-TEX® dry socks
9. Rapid Repair Technology™ enables users to field replace neck and wrist seals in an hour or less (CCS™ adjustable neck seal standard)
10. Two-point attachment removable suspender system for an improved fit, mobility and comfort
11. SOLAS retro-reflective tape on the arms for increased visibility
12. CORDURA® reinforced overcuffs with **hook and loop fastener** closures for adjustability
13. Ballistic nylon reinforced neoprene knee pads

SIZE	Mobility Based Sizing: 24 individual sizes available (8 standard & 16 special order).
COLORS	■ Fluorescent Yellow-Green/Black ■ Yellow/Black
CUSTOMIZATION	Agency markings and other seal types available by special order
CLO	Immersed Clo 0.75 when worn with Mustang Survival dry suit liner MSL600 and lightweight thermal baselayers MSL604 and MSL605
ACCESSORIES	MA7348: Neoprene Survival Hood MA2292: Zipper Lubricant

For cold water applications, combine with Mustang Survival MSL600 Polartec® liner

IMPROVED FIT FOR WATER RESCUE DRY SUIT

SIZING GUIDE

To properly fit a Water Rescue Dry Suit follow the instructions below.

STEP 1 – MEASURING

For accurate measurements, please refer to the measurement diagram and instructions provided.

	LOCATION	VALUE	PROCEDURE
1	Chest		Measure the horizontal circumference around the chest at maximum girth. For males, this is typically where the tape runs under the armpits at the scye. For females, this is at the bustline.
2	Waist		Measure the horizontal circumference around the waist (belt) line.
3	Hips		Measure the horizontal circumference around the hips and buttock at maximum girth.
4	Sleeve		With your arms horizontal, bent at the elbows, and with your fists touching knuckle-to-knuckle out from the chest, measure the distance from the center of the back along the outside of the arm to the outer tip of the wrist.
5	Inseam		Measure the vertical distance from the crotch to the floor. Use a book pressed firmly up between the legs and measure from the top of the book.
6	Torso Hoop		With your shoulders relaxed and the tape running over the center of one shoulder and between the legs, measure the vertical trunk circumference.
7	Height		Vertical standing height with good posture and no footwear.

STEP 2 – SIZING

Based on your measurements, determine your size according to the chart below. If all your measurements fall between the ranges of two sequential sizes (such as between S and M) select the size that best fits your Torso Hoop and Inseam.

LOCATION	M	L	XL	XXL
Chest	39-42"	43-46"	45-48"	49-52"
Waist	34-37"	37-40"	41-44"	46-49"
Hips	39-42"	41-44"	43-46"	47-50"
Sleeve	33-35"	35-37"	36-38"	37-39"
Inseam	32-34"	34-36"	34-36"	34-36"
Torso Hoop	68-71"	71-74"	73-76"	75-78"

***PLEASE NOTE: IF ALL YOUR MEASUREMENT DO NOT FALL INTO THE RANGE OF SIZES LISTED HERE, YOU MAY CONSIDER ORDERING AN MSD624 SENTINEL SERIES WATER RESCUE DRY SUIT. THE MSD624 IS AVAILABLE IN OUR MOBILITY BASED SIZING, WHICH INCLUDES 8 STANDARD SIZES FROM XS TO 3XL, AS WELL AS SHORT AND LONG SIZES AS A SPECIAL ORDER. PLEASE CONTACT MUSTANG SURVIVAL FOR MORE INFORMATION.**

MEASURING LOCATIONS

All measurements should be taken with a "tailors" (flexible) tape while wearing garments and any accessories such as body armor usually worn under the dry suit.
