

OCEAN-TAMER MANUFACTURING

Manufactured in the U.S.A., Ocean-Tamer Marine Grade Bean Bags use the highest quality UV and mildew resistant marine grade materials available. Each marine bean bag from Ocean-Tamer is designed and built by our highly trained staff and tested to ensure durability.

As active boaters and avid fishermen, the Ocean-Tamer staff understands the importance of comfort and safety on the water. That's why our marine grade bean bag chairs are designed and manufactured to be the best.

Every Ocean-Tamer Marine Grade Bean Bag comes standard with two heavy duty nylon handles sewn in the bottom of the bean bag for easy carrying, storing, or fastening to your T-top when not in use.

OCEAN-TAMER QUALITY & DURABILITY

Ocean-Tamer marine seating products have been tournament tested and professionally proven to withstand sea conditions that the average boater will never face.

Every marine bean bag chair from Ocean-Tamer is custom made in the USA with the highest quality marine grade materials available and backed by our [lifetime warranty](#). We use 100% marine grade vinyl, heavy duty marine grade thread (all double stitched), heavy duty nylon zippers, strong nylon strap handles, and or premium Ocean-Tamer virgin polystyrene beads provide you with a high quality product that is comfortable, durable, and will last for years to come!

BUILT FROM THE BEST

Our marine bags incorporate the highest quality marine grade vinyl, heavy-duty marine grade zippers, and thread. For these reasons and many more, Ocean-Tamer Marine Grade Bean Bags are the industry bean bag of choice among professional sport fishermen worldwide.

- UV and Weather Resistant
- Mold and Mildew Resistant
- Water Repellent
- Tear and Crack Resistant

OCEAN-TAMER PREMIUM FILLER

What's our secret? Ocean-Tamer utilizes the best quality filler on the market. Thus, exposing the secret to the extreme comfort of Ocean-Tamer Marine Bean Bag products! Ocean-Tamer premium virgin polystyrene beans are small, uniform and water tight to surround the body and provide the utmost comfort and durability.

Other companies claim to use quality filler. Virgin polystyrene is the ONLY bean bag filler that is completely sealed, water tight, and uniform with the ability to spring back into its original shape and size after every use. Other marine bean bag manufacturers use "recycled" polystyrene, also known as reground Styrofoam or other less durable fillers such as shredded foam. Recycled polystyrene or reground Styrofoam breaks down quickly over time, causing the bean bag to go flat and not support your body.

When Styrofoam is ground to create recycled polystyrene the water tight seal has been compromised causing the filler to absorb moisture and odor while breaking down rapidly, ultimately ushering in the need to replace the filler. Shredded foam also absorbs odor and moisture that promotes mildew and causes the bean bag to become extremely heavy and constantly wet.

Ocean-Tamer Marine Grade Bean Bag utilizes premium virgin polystyrene beans because they are the only filler that withstands the harsh outdoor elements and extreme marine conditions.

Ocean-Tamer Filler

AVAILABLE COLORS

Every Ocean-Tamer Marine Grade Bean Bag is available in your choice of 1 or 2 colors at no extra charge.

Ocean-Tamer provides a vast color selection offering more colors than any other marine bean bag manufacturer in the industry. You are sure to find the right color combination to match your boat, favorite sports team, or home décor. These beautiful colors are also available on the design page of your new Ocean-Tamer once you have selected the style that is right for you.
