The OceanLED X-Series X4 combines brightness with affordability.

Whether cruising or fishing, the X4 gives stunning performance, allowing you to enjoy more time on the water with family and friends.

The X4 outputs an impressive 1,150 fixture lumens from its low profile design and utilizes focused optics to produce a 60° circular beam from each LED, providing great water penetration and illuminating a large area.

Choose Midnight Blue or Ultra White colour options.

Looking to catch more fish? Switch on the Fish-Strobe mode and the light emits a random strobe pattern that is proven to attract extra bait and help catch more fish.

- Midnight Blue and Ultra White colour options.
- Slim design makes it simple to install on small and medium sized boats.
- True 60° beam angle with no fading at the edge giving better illumination.

ABOVE WATER MOUNTING

The X Series can also be used as an exterior light for your cockpit, deck or trailer..

COMPACT AND SIMPLE DESIGN

Made from a chemically resistant optical polymer with a built in driver, there is a lot packed into this compact light.

SIMPLE TO INSTALL

Installation needs only a small, 12.5mm hole in the hull to feed the cable through and 4 screws to hold in place. No bonding required.

EASY TO CLEAN

Thanks to its Tritonium coating, a simple wipe of the lens removes any underwater growth, saving hours of scrubbing each time you use your boat.

FISH-STROBE MODE

Exceptionally bright, randomised strobing of the light is proven to attract more fish and catch more bait.

ACTIVE THERMAL CONTROL

ATC prevents overheating. In the event of overheating the ATC system will reduce the LED power level in order to protect the LEDs, or in extreme cases, turn off the fixture completely.
