

TOGGLE SWITCH PANELS
WATERPROOF PANELS
Part Number 9960005B
DC 4-Position Toggle
Switch Panel

GENERAL FEATURES & BENEFITS

- Ideal for Exposed Applications
- Pre-Wired for Easy Installation
- Rubber Booted Toggle Switches
- Amber LED Indicator Lights
- Durable Aluminum Construction
- Front Access Fuse Holders
- All Mounting Hardware is Included
- Two-Year Factory Warranty

DELUXE & PREMIER POWER DISTRIBUTION PANELS | GENERAL FEATURES

DC Line Panels

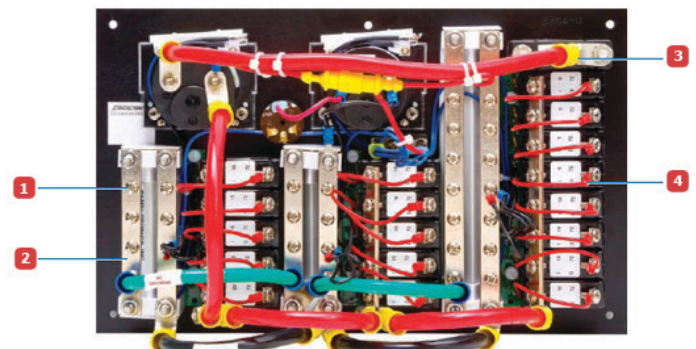

1. Corrosion resistant polyurethane finish with several colors and finishes to choose from
2. Color coded amber LEDs facilitate quick monitoring
3. Durable epoxy silk-screened graphics
4. 1/8" durable aluminum construction
5. Countersunk screw mounting holes
6. Edge illuminated easy-to-read analog meters (digital meters optional)
7. Rotary switch enables monitoring of multiple battery banks
8. Select from over 3,000 interchangeable backlit function labels
9. Circuit breaker amperages are loaded to meet your custom requirements

Front

Back

1. Conveniently mounted bus bar connectors minimize installation time
2. 1/2" x 1/8" tin plated copper buses
3. Battery positive cable easily connects to 1/4-20 circuit breaker stud
4. Completely pre-wired ready for line and load connectors

DELUXE & PREMIER POWER DISTRIBUTION PANELS | GENERAL FEATURES

Selection

- The largest selection of circuit breaker and power distribution panels to choose from
- Over 250 modular panel designs for maximum installation flexibility
- Interchangeable, polycarbonate function labels (over 3,000 available)
- Custom configuration based on your specific requirements
- Optional colors and finishes available to match every application

Increased Readability

- Color coded LED indicators*
- Backlit labels and meters*
- High accuracy analog or digital meters available

Industry Certified

- Hydraulic/ Magnetic, Trip Free UL Listed and Recognized and CSA Certified Circuit Breakers
- VDE approved and CE compliant circuit breakers available
- Product of choice for premier boat builders worldwide

Installation

- Completely pre-wired for ease of installation
- Panel mounted tin plated bus bars
- Panel mounted bus connectors
- Detailed Wiring Diagrams for simple and safe installation
- Optional hinges for further ease of installation
- Free factory technical support

DC Panel Features

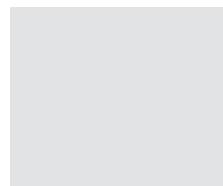

- Available in 12 VDC, 24 VDC or 32 VDC
- Tin plated, panel mounted DC positive, DC negative and grounding bus bars
- Large frame DC mains rated at 5,000 AIC
- Selector switch enables monitoring of up to four battery banks
- High performance DC ammeter shunts

Color Options

- Textured black finish is standard on all panels
- Custom colors and custom logos available
- Premier and Deluxe models are also available in the following color options:

Black(Standard)#3.5

White #3.7

Charcoal Gray #3.11

4 Woodtec Curl Elm

5 Woodtec Teak

*available on Premier Line panels

DELUXE & PREMIER POWER DISTRIBUTION PANELS | GENERAL FEATURES

Modular Design

- Paneltronics panels are modular in design
- Combine panels from different series to meet your specific requirements
- Custom blank panels can be made to incorporate additional components
- Panel groups are often mounted onto a custom hinged frame and enclosure
- Frame and enclosure mounted panel groups are shipped as a complete assembly

Our technical sales representatives can help you with creative modular designs.
