

55-0105

### Wireless Remote

The 105 will interface with all Panther Electro Steer and Trim/Tilt systems.

If you are ordering this as a new system, be sure to order your steering device with "no electronics", designated by "NE" after the part number and then order your Wireless Remote.

If you already own a steering device or trim/tilt, you will replace the electronics with the receiver, wiring, and remote from the 55-0105.

The handy little remote will allow you to control your motor from anywhere in the boat. It has an operating range of 50 ft. and it will not interfere with other electrical devices. The remote is watertight, and a neck lanyard is included. Powered by an A23 type battery, FCC Approved.

Dimensions: of the remote fob: x 3" x 1-1/2" x 1/2"

Dimensions: of the receiver: 4" x 3" x 1 1/2"
