ROD HOLDERS

AP-700A

AP-800A

Featuring anti-slip notches, Angler's Pal Rod Holders are designed for the serious troller. Constructed of anodized aluminum and stainless steel for use in all freshwater and saltwater environments.

DIMENSIONS AP-700A: BASE PLATE— 2-3/4", TUBE DIAMETER 1-3/4", TUBE DEPTH 7-3/4"

This rod holder is suitable for most walleye and panfish rods. An excellent choice for light trolling or still fishing.

DIMENSIONS AP-800A: BASE PLATE— 2-3/4", TUBE DIAMETER 1-3/4", TUBE DEPTH 10"

This is our most popular rod holder. It will accept most heavy duty trolling rods and is the choice of serious anglers and charter captains throughout the Great Lakes as well as the Pacific Northwest.
