Features: Fold-in-Half poles allow for long poles to be stored when not in use. The adjustability of the globe allows for proper horizontal alignment regardless of base configuration.

Retail Pkg.: Universal replacement lights are designed to fit most other manufacturers' bases. They feature two collars (one threaded and one locking), two screw positions, and an adjustable head (wide 40°).

Delta Series: Incandescent Light: Reduced Glare Includes the clear, full output globe which allows for improved visibility when in rough water and from above. Delta's list of features puts it in a class by itself. **No Other** pole light system offers more.

Omega Series: LED Reduced Glare offers the same benefits as the Delta Series but in an LED version.

Stealth Series: LED Reduced Glare design helps preserve night vision by reducing the amount of light wasted outside of the visibility zone and not attracting as many bugs.
