

Solid Braid Nylon

PRODUCT CODE: 019

Solid Braid Nylon stays firm, round, and flexible while resisting abrasion. It also resists rot, mildew, mold, UV degradation, and most chemicals. Solid Braid Nylon conforms to U.S. Military Specification #: MIL-C43307B. Please state military specification when ordering or requesting a quotation.

APPLICATIONS

- > General Multi-Use

FEATURES AND BENEFITS

- > Flexible
- > Resists rot, mildew, mold, and most chemicals
- > Mitigates shock
- > Retains shape with use

COLOR: White

SPECIFICATIONS

FIBER: Nylon

SPECIFIC GRAVITY: 1.14

SPLICE/CLASS: Non spliceable

ELASTIC ELONGATION PERCENTAGE:

At % of break strength
