IMPORTANT

Mast Pods are only compatible with marine electronics devices as stated in the latest Scanstrut Product Guide – subject to change without prior notice.
Use with unapproved products, or overloading, invalidates any warranty.
No liability is accepted for damage caused by incorrect installation.
The installation and assembly must be regularly inspected for evidence of damage or loose parts.
This product has been designed specifically for the mounting of approved marine electronics devices and used under normal boating conditions.
This product is designed to suit aluminium masts with a maximum width at fixing point of 206mm [8.11"] and wall thickness in the range 2mm (5/64") - 5mm (3/16").
For installation on non-aluminium masts, or mast sections outside the above sizes, please consult Scanstrut Head Office.
The mast bracket arm assembly is not designed to be removed and re-installed once fitted.
For installations that differ from those stated here, please consult Scanstrut Head Office.
