

MARINE DIGITAL CORROSION TESTER

- **QUICK** response time
- **COLOR** test result
- **EASY** to use and customize
- Choose between a Standard and **PRO** model
- Quick release lock connectors for both the reference cell and the alligator clip – you will never lose them!

The corrosion protection system on your boat should be checked at regular intervals. Failure to do so can lead to a costly and time consuming repair.

Seaguard Digital Corrosion Tester is designed to be used by boat owners or marine operators.

- Choose the **STANDARD** model with Zinc reference cell (ZRE).
- Choose the **PROFESSIONAL** model with Silver and Silver Chloride (SSC) reference cell.

Measurement range	-2.5V~+2.5V
Accuracy	0.5%
AD resolution	16 bits
Display refresh rate	5 time/Sec
Display	1.8" TFT, Resolution: 320*220
Tester impedance	$> 10^8 \Omega$
Power supply	3 pcs AAA batteries
Battery lifetime	7 hrs
Auto shutdown	Auto off after 2.5 minutes
Record data (PRO model)	Max. 50
Working temp.	-10°C~50°C
Dimension	142*63*32mm
