

ELECTRICAL FUEL PUMP

Innovative engineering, manufacturing technology and quality control ensure that Spectra Premium electrical fuel pumps meet or exceed the performance of the original equipment they replace.

- Engineered and developed in Canada
- All applicable hardware and components provided for product installation
- Carbon commutators, found on specific high flow pump applications, offer increased durability and generate less heat equating to longer lasting fuel pumps
- Endurance tested and validated by accredited, third party lab
- 100% performance tested
- Engineered to stringent tolerances based on our Canadian engineers' in-depth knowledge of the OE part it's designed to replace
- Engineered and developed by Spectra Premium; proud member of the A.A.S.A. fuel pump manufacturers working group
