

# Waterproofing with PTEF Safety Data Sheet

Safety Data Sneet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Revision Date: 04/23/2015 Date of issue: 09/30/2014

# **SECTION 1: IDENTIFICATION**

Product Identifier Product Name: Waterproofing with PTEF Product Code: 819XX Intended Use of the Product Waterproofing

# **SECTION 2: HAZARDS IDENTIFICATION**

Classification of the Substance or Mixture

Classification (GHS-US) Flam. Liq. 4 H227 Asp. Tox. 1 H304 Label Elements GHS-US Labeling Hazard Pictograms (GHS-US) :

Signal Word (CHS US)	
Signal Word (GHS-US)	: Danger
Hazard Statements (GHS-US)	: H227 - Combustible liquid
	H304 - May be fatal if swallowed and enters airways
Precautionary Statements	: P210 - Keep away from heat, hot surfaces, open flames, sparks - No smoking.
(GHS-US)	P280 - Wear eye protection, protective gloves, protective clothing.
	P301+P310 - If swallowed: Immediately call a poison center/doctor.
	P331 - Do NOT induce vomiting.
	P370+P378 - In case of fire: Use dry chemical powder, alcohol-resistant foam, carbon dioxide (CO <sub>2</sub> )
	to extinguish.
	P403+P235+P405 - Store in a well-ventilated place. Keep cool. Store locked up.
	P501 - Dispose of contents/container according to local, regional, national, territorial, provincial,
	and international regulations.

# **Other Hazards**

**Other Hazards Not Contributing to the Classification**: Exposure may aggravate those with pre-existing eye, skin, or respiratory conditions.

Aquatic Acute 2

Aquatic Chronic 3

H401 - Toxic to aquatic life.

H412 - Harmful to aquatic life with long lasting effects.

P273 - Avoid release to the environment.

Unknown Acute Toxicity (GHS-US) Not available

Version: 3.0

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

# SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Name	Product identifier	% (w/w)	Classification (GHS-US)
Petroleum distillates, hydrotreated light	(CAS No) 64742-47-8	60 - 100	Flam. Liq. 4, H227
	(EC No) 926-141-6		Asp. Tox. 1, H304
			Aquatic Acute 2, H401
Solvent naphtha, petroleum, medium aliphatic	(CAS No) 64742-88-7	3 - 7	Flam. Liq. 3, H226
			Skin Irrit. 2, H315
			STOT SE 3, H336
			Asp. Tox. 1, H304
			Aquatic Acute 3, H402
			Aquatic Chronic 2, H411

Full text of H-phrases: see section 16

# **SECTION 4: FIRST AID MEASURES**

### **Description of First Aid Measures**

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label if possible). **Inhalation:** Remove to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice. **Skin Contact:** Remove contaminated clothing. Drench affected area with water for at least 15 minutes. Wash contaminated clothing before reuse. Obtain medical attention if irritation develops or persists.

**Eye Contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if pain, blinking or redness persist.

**Ingestion:** Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

# Most Important Symptoms and Effects Both Acute and Delayed

General: May be fatal if swallowed and enters airways.

Inhalation: May cause drowsiness or dizziness.

Skin Contact: May cause skin irritation.

**Eye Contact:** May cause eye irritation.

Ingestion: May be fatal if swallowed and enters airways.

Chronic Symptoms: Repeated or prolonged skin contact may cause dermatitis and defatting.

#### Indication of Any Immediate Medical Attention and Special Treatment Needed

If medical advice is needed, have product container or label at hand.

# SECTION 5: FIRE-FIGHTING MEASURES

# Extinguishing Media

Suitable Extinguishing Media: Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>).

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

#### Special Hazards Arising From the Substance or Mixture

Fire Hazard: Combustible liquid.

**Explosion Hazard:** May form flammable/explosive vapor-air mixture.

Reactivity: Reacts with (strong) oxidizers: (increased) risk of fire.

#### Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

Firefighting Instructions: Do not allow run-off from fire fighting to enter drains or water courses.

Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Hazardous Combustion Products: Carbon oxides (CO, CO<sub>2</sub>). Silicon oxides. Nitrogen compounds.

<u>Reference to Other Sections</u> Refer to section 9 for flammability properties.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Use special care to avoid static electric charges. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Avoid all contact with skin, eyes, or clothing. Do NOT breathe (vapor, mist, gas).

#### For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protection equipment (PPE).

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Emergency Procedures: Evacuate unnecessary personnel.

#### **For Emergency Personnel**

**Protective Equipment:** Equip cleanup crew with proper protection.

Emergency Procedures: Eliminate ignition sources. Ventilate area. Stop leak if safe to do so.

#### **Environmental Precautions**

Prevent entry to sewers and public waters. Dangerous due to potential toxicity for the environment.

#### Methods and Material for Containment and Cleaning Up

For Containment: Absorb and/or contain spill with inert material, then place in suitable container. Do not take up in combustible material such as: saw dust or cellulosic material.

Methods for Cleaning Up: Clear up spills immediately and dispose of waste safely. Use only non-sparking tools.

**Reference to Other Sections** See heading 8, Exposure Controls and Personal Protection.

# **SECTION 7: HANDLING AND STORAGE**

#### Precautions for Safe Handling

Additional Hazards When Processed: Handle empty containers with care because residual vapors are flammable.

**Hygiene Measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work.

#### Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Proper grounding procedures to avoid static electricity should be followed. Comply with applicable regulations. **Storage Conditions:** Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Keep in fireproof place. **Incompatible Materials:** Strong acids. Strong bases. Strong oxidizers.

Specific End Use(s) Waterproofing

# **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

<u>Control</u>	<b>Parameters</b>	

Petroleum distillates, hydrotreated light (64742-47-8)		
British Columbia	OEL TWA (mg/m <sup>3</sup> )	200 mg/m <sup>3</sup> (application restricted to conditions in which there are
		negligible aerosol exposures)
Solvent naphtha, petroleum, medium aliphatic (64742-88-7)		
USA ACGIH	TLV	Not applicable
USA OSHA	PEL	Not applicable
USA NIOSH	REL	Not applicable
USA NIOSH	IDLH	Not applicable

#### Exposure Controls

**Appropriate Engineering Controls:** Ensure all national/local regulations are observed. Use explosion-proof equipment. Take precautionary measures against static discharges. Gas detectors should be used when flammable gases/vapours may be released. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. **Personal Protective Equipment:** Protective clothing. Safety glasses. Gloves. Insufficient ventilation: wear respiratory protection.

Materials for Protective Clothing: Wear fire/flame resistant/retardant clothing.

Hand Protection: Wear chemically resistant protective gloves.

Eye Protection: Chemical goggles or safety glasses.

Skin and Body Protection: Wear suitable protective clothing.

**Respiratory Protection:** Use a NIOSH-approved respirator or self-contained breathing apparatus whenever exposure may exceed established Occupational Exposure Limits.

# Other Information: When using, do not eat, drink or smoke.

# SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

# Information on Basic Physical and Chemical Properties

**Physical State** 

: Liquid

Safety Data Sheet

Odor	:	Petroleum
Odor Threshold	:	Not available
рН	:	Not available
Relative Evaporation Rate (butylacetate=1)	:	Not available
Melting/Freezing Point	:	- 70 °C (- 94 °F)
Boiling Point	:	149 - 204.5 °C (300.2 - 400.1 °F)
Flash Point	:	62.5 °C (144.5 °F)
Auto-ignition Temperature	:	Not available
Decomposition Temperature	:	Not available
Flammability (solid, gas)	:	Not available
Lower Flammable Limit	:	Not available
Upper Flammable Limit	:	Not available
Vapor Pressure	:	Not available
Relative Vapor Density at 20 °C	:	Not available
Relative Density/Specific Gravity	:	0.78 (water = 1)
Solubility	:	Insoluble in water.
Partition coefficient: n-octanol/water	:	Not available
Viscosity	:	Not available
Explosion Data – Sensitivity to Mechanical Impact	:	Not expected to present an explosion hazard due to mechanical impact.
Explosion Data – Sensitivity to Static Discharge	:	Not expected to present an explosion hazard due to static discharge.
SECTION 10: STABILITY AND REACTIVITY		
	sed)	risk of fire.
