

Troll-Tamer Compatibility Guide | Find the Right Trolling Motor Troll-Tamer Application

Look no further -- we have accounted for variation between boat brands and models and moved beyond the general [Troll-Tamer compatibility guide](#) that we previously published. With this page, we're now providing and updating Troll-Tamer information to be more precise so you can always find the right Troll-Tamer trolling motor application.

Troll-Tamer Application Guide to Finding the Right Fit

Before checking out the information listed below, please note that most (if not all) other Troll-Tamer compatibility guides are general guidance based on trolling motor brand, trolling motor model, boat brand, and boat model. However, to get you the best fit and the right Troll-Tamer model, we are now recommending that you simply gather three simple pieces of information:

1. Know your trolling motor brand (MotorGuide, Minn Kota, Lowrance, Garmin, etc)
2. Know your trolling motor model
3. Measure the spacing between the bottom of the trolling motor mount and the deck of your boat (this is where the Troll-Tamer will install).

(Please refer to the picture on this page for the correct place of measurement. This distance "X" should then be used to see which Troll-Tamer product has the range of distances that covers that distance.)

Once you know these three pieces of information, it should be a breeze to follow the chart below. Whether you have a Bass Cat, a Legend, a Nitro, a Phoenix, a Ranger, a Skeeter, a Stratos, a Triton, a Vexus, or any other boat brand, you can count on [T-H Marine's Troll-Tamer Trolling Motor Stabilizer Lock](#) to securely hold your trolling motor in place and prevent damage to the trolling motor and boat.

Our latest models (RMC-108-DP and RMC-109-DP) even feature a clamp-on shaft bracket to work with the latest in digital, wireless bow mount trolling motors, including the Minn Kota Terrova, Auto Pilot, and Riptide models, as well as the Motor Guide Xi5.

Troll-Tamer Compatibility Guide Chart

<u>Trolling Motor Brand and Model</u>	<u>Measurement*</u>	<u>Troll-Tamer Model</u>
MotorGuide Tour Series and X5	N/A	RMC-101MG-DP
MotorGuide Tour Pro	N/A	RMC-102MG-DP
MotorGuide Freshwater Series	N/A	RMC-101MG-DP
MotorGuide Gator Mounts (20.8, 21, 21R, 24, 24R)	N/A	RMC-101MG-DP
MotorGuide Xi5	5" - 8"	RMC-108-DP
MotorGuide Xi5	9" - 12"	RMC-109-DP
Minn Kota Terrova	5" - 8"	RMC-108-DP
Minn Kota Terrova	9" - 12"	RMC-109-DP
Minn Kota Auto Pilot	5" - 8"	RMC-108-DP
Minn Kota Auto Pilot	9" - 12"	RMC-109-DP
Minn Kota Maxxum	2 3/4" - 4 1/4"	RMC-105FMK-DP
Minn Kota Maxxum	3 1/2" - 5"	RMC-104FMK-DP
Minn Kota Maxxum	5" - 8"	RMC-101FMK-DP
Minn Kota Maxxum Pro	2 3/4" - 4 1/4"	RMC-105FMK-DP
Minn Kota Maxxum Pro	3 1/2" - 5"	RMC-104FMK-DP
Minn Kota Maxxum Pro	5" - 8"	RMC-101FMK-DP
Minn Kota Fortrex	2 3/4" - 4 1/4"	RMC-105FMK-DP
Minn Kota Fortrex	3 1/2" - 5"	RMC-104FMK-DP
Minn Kota Fortrex	5" - 8"	RMC-101FMK-DP
Minn Kota Ultrex	2 3/4" - 4 1/4"	RMC-105FMK-DP
Minn Kota Ultrex	3 1/2" - 5"	RMC-104FMK-DP
Minn Kota Ultrex	5" - 8"	RMC-101FMK-DP
Lowrance Ghost	2 3/4" - 4 1/4"	RMC-105FMK-DP
Lowrance Ghost	3 1/2" - 5"	RMC-104FMK-DP
Lowrance Ghost	5" - 8"	RMC-101FMK-DP
Garmin Force	2 3/4" - 4 1/4"	RMC-105FMK-DP
Garmin Force	3 1/2" - 5"	RMC-104FMK-DP
Garmin Force	5" - 8"	RMC-101FMK-DP
