

OUTRIGGER LINE TENSIONER

The Taco Marine Outrigger Line Tensioner is designed for larger boats that are fishing with double or triple lines on each outrigger. Outrigger Line Tensioners have been around for years in many shapes and sizes and are ideal for large center consoles or sport fishing boats. The purpose and function is to keep the proper tension on the outrigger lines and maintain them fully extended and tight.

FEATURES & BENEFITS

- Stainless Steel Type 316 construction
- 18-8 Stainless Steel mounting hardware
- Quick and easy installation using 3/4" drill bit through the gunnel
- Mushroom head threaded bolt
- Adjustable for boats with 1" to 2-1/2" gunnel thickness
- Easy Ronstan medium cam cleat for 1/8" to 1/2" rope
- Heavy-duty lock washer to prevent loosening from excess vibration
- Electro polished bracket with countersunk mounting holes
