

DELUXE ALUMINUM TELE-OUTRIGGER POLES

Designed for offshore trolling in search of bigger fish, the new Deluxe Aluminum Tele-Outrigger Poles have a thicker wall for enhanced durability and feature patent-pending 360-degree swivel collars for better natural bait presentation and reduced halyard friction. The Hybrid Poles telescope below 8' for trailering, storage and bridge clearance and extend to 18' - increasing the strike zone when fishing. They pair with TACO Grand Slam 280, 380 and 400 mounts and are available in silver/silver and black/silver.

FEATURES & BENEFITS

- 3-piece telescopic pole
- Fits standard 1-1/2" base
- Solid Delrin support bearings
- Linear lock pins for easy operation
- Easily collapsed and stowed
