Thank you for purchasing a quality Taco Marine product.

- 1) Clean area of all contaminants.
- 2) If applicable, peel off the release liner carefully. Make sure it does not remove the adhesive with it.
- 3) Avoid stretching during installation.
- 4) Recommended temperature is between 60°F & 100°F.
- 5) Press down firmly to assure a strong bond.
- 6) To clean, use a mild solution of soap and water.
- 7) Use protectant/lubricant periodically to keep pliable.
