

TRIDENT MARINE®

NEW BLUE REINFORCED PVC (FDA)

165 Series

Trident 165 Series Blue - polyester re-enforced PVC hose for "Cold Water" feed lines. FDA grade tube is non-toxic, odorless and tasteless. Made of 3-ply polyester for excellent abrasion resistance and sustained flexibility. Suitable for use in harsh operating conditions with temperatures as low as -18.4°F (-28°C) and can handle pressures up to 250 psi (varies based on i.d size). The Blue cover allows for easy identification of "Cold Water" lines on your boat. Perfect for cold pressurized applications, water feed, drains and vent lines.

Specifications

Construction:

Tube & Cover:
Clear FDA Tube
Blue transparent Cover

Color: Transparent
Blue

Reinforcement:
Polyester

Part Number	ID		OD		Working Pressure		Weight		Bend Radius	
	Inch	MM	Inch	MM	PSI	Bar	Lb. /50 ft.	Kg/ m	Inch	MM
165-0120	1/2	12.7	.777	19.6	250	17			0.98	25
