

# WATERLINE DESIGN

1. Open the hatch.
2. Mount the suction cup or magnet according to instruction on the mosquito net.
3. Press the suction or the magnet (magnet and metal plate) to the hatch. Make sure the suction cup and hatch is clean for best result.
4. Tighten up the net against the sealing / hatch.

To remove the net, don't pull in the net. First remove the suction cup with a finger.
